

This game is an adaptation of the Miniclip game – **Bloxorz** .

Below is a screenshot when the game being played .

- As shown , the player's objective is to take the block to the hole (the black hole) using the arrow keys on the screen for movement or can use A,S,D,W keys for movement.
- The block falls off the corners if it gets out of the plane and the game ends.
- Press Space + A/S/D/W to jump the block by one row/column.
- If in a vertical state over the fragile tiles , the light brown ones – the block drops down with the tile and the game ends.
- Otherwise , the block is okay to move in any orientation on the other kinds of tiles.
- The X – Switch tiles toggles the activation of bridge tiles.
- On the bottom left of the screen there are options to change the camera views which can also be changed using the keys
  1. Follow Cam View – to toggle between different follow positions use ALT Key
  2. Top View
  3. Block View
  4. Tower View
  5. Helicopter View - to change angles of view drag on the screen , to move the helicopter cam use the arrow keys.
  6. General Mode – use Arrow keys to move X, Y directions – z,x keys in Z direction
- Sounds and Textures have been added to make the game more lively.
- Teleportation Tiles – Go onto Red Flash Tile – get teleported to the white Ring tile.
- Two levels have been added to the game. General functions have been made which just need the coordinates of the tiles to make new levels.
- Timer in seconds on top left and Number of steps taken in the top right .
